0:00 [MUSIC] >> The House will come to order

0:09 messages from the Senate.

0:18 >> Message from the Senate, Madam Speaker, I hereby announce the adoption by the sound of the following Senate concurrent resolution here with transmitted Senate concurrent

0:27 resolution number 4 relating to a German for more than 3 days. A message to sign Thomas spotter, secretary of the

0:35 Senate long moves that the rules be so far suspended that Senate concurrent resolution. Number 4, we now considered and placed

0:44 upon its final adoption. I recognize the maker of the motion, the member from

0:50 Hennepin, the majority leader. Representative. Long to explain your motion, Mister Speaker. This is a suspension of the rules that

0:56 would allow us to take our spring break next week. >> Is there any discussion to Representative Long's motion?

1:04 I recognize the member from right, Representative McDonald. Thank you, Mister Speaker. I rise just 2 of the point of

1:10 order certification for some of us. It's not spring break for some of us is Easter Holy week in past.

Chair or Mister Speaker. >> Further discussion to the 6 Amendment to recognize member from Anoka Representative Stevenson.

1:20:17

>> Thank you, Mister Speaker and members. I ask members to vote no on the amendment. I I do think

1:20:23

that revenue really raises some important questions. I think

1:20:29

that the bill from my perspective does have a clear standard because what says it has to appear to authentically

1:20:36

depicts someone engaging in speech or conduct that they did not, in fact engage. And I I do think that is a clear standard

1:20:42

that can be referenced my concern with adopting the amendment, as I do think that still images and perhaps not

1:20:51

the ones that we've been seeing on the on the floor today. And yes, we did. You know, I think that's it. Some of the

1:20:59

most interesting handouts we've had in some time. And it was important to me to send out the one to make clear that everyone

1:21:04

understood that this one could still happen, that this one is don't worry, we could still do that. But

1:21:11

but we have seen just in the last week an example of a still image deep think that should give us pause because images we

1:21:21

have been circulating this week of a former President United States being arrested.

1:21:27

These have been on Twitter and other places and that did not happen.

1:21:32

Those images are not real. And some of those images could easily be construed by a voter

1:21:40

to be authentic. And if you imagine those not being circulated on Twitter,

1:21:45

you know, 2 years before an election, but in a mailbox a

1:21:50

week before an election, you can imagine the harm that that could do without any

1:21:56

opportunity for redress. This technology is getting really good. And I think it's important to include still images. I think it's important for us to not be deceiving

1:22:04

voters. So I appreciate the discussion and I appreciate resident really raising this issue. And I I'm happy to

1:22:10

continue talking about the issues that represent really is raising. But I would ask today the members vote no.
